Attention Ryborn R. Kirby, Mail Code TF6
Houston, Texas 77058

Dear Mr. Kirby:

During the month of May 1973 the team was primarily concerned with personal identification and recruiting and planning for the collection of ground truth data. By May 31, plans for ground truth were near completion. The PI also drafted a proposed subcontract with ERIM and submitted it through the University Business Office to NASA for approval. He also prepared a series of other forms to create positions, officially accept the contract, etc.

June activities will involve completion of the hiring (hopefully), completion of the subcontract, ground truth operations in connection with SL-2.

Sincerely yours,

Lester V. Manderscheid

Lester V. Manderscheid
